

## 1206 SMD LED – metric 3216 Size

Luminous flux :600-1500MCD

Color:

White(6000-7000K)

Red(620-625nm)

Blue(460-465nm)

Green(515-520nm)

Yellow Green(570-570nm)

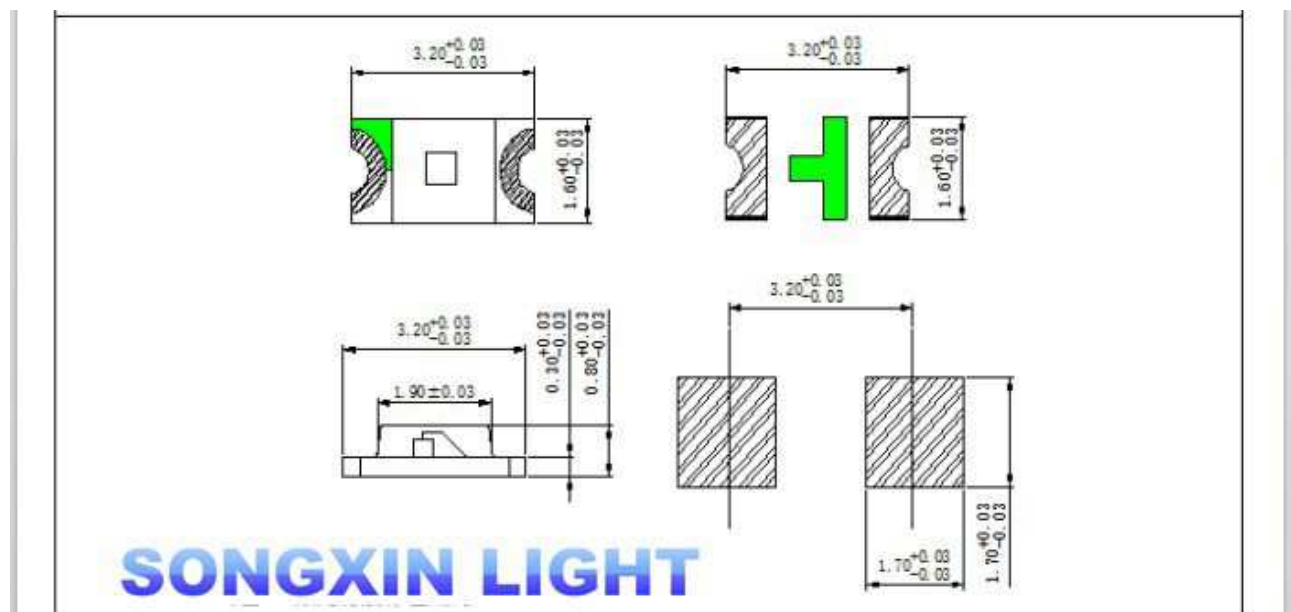

Forward Current: 20mA  
Forward Voltage :Red, Yellow (1.8-2.1V)  
Other Color(3.0-3.4V)

- 1, high luminous efficiency, narrow spectrum, good color
- 2, high color display vivid colors, excellent color reproduction capability
- 3, green. Does not contain lead, mercury and other toxic substances
- 4, access to national scientific and technological achievements authoritative identification
- 5, precision constant current, the life of 50,000 hours, low attenuation

The factory products with high technological content, product quality positioning is high.

Products for: plate lights, fluorescent lights, displays, car lights, soft lights, flashlights, LED indoor and outdoor lighting and other products

**Cena od 0,40 Kč/ks včetně DPH**
